сдела [Intriguing] ал - отметил

менту"

- ✓ Описываем результат
- ✓ Больше свободы
- ✓ Больше мотивации

«Правила» написания

- ✓ Четкие и короткие фразы
- ✓ Атомарные пункты
- ✓ Немного пунктов (до 20)
- ✓ Если пишем для нулевого уровня, используем "Прочитал-сделал"
- ✓ Стараемся использовать «Сделал-отметь»

Чеклисты в ИТ

- ✓ Старт проекта
- ✓ Собеседования
- ✓ Тестирование
- ✓ Definition of Done
- ✓ Подготовка документов
- ✓ Доставка релизов

Usability checklist

✓ Catch common usability problems before user testing

USER EXPERIENCE

- Personalized features.** Currency, language, country specific deals, taxes, or delivery options are changed based on user's location. IP-based geolocation is not enabled without user's permission.
- Registering provides value to users.** For example a "Free Trial" button communicates a clear benefit, but a "Register" button doesn't. Unnecessary registration is avoided.
- Transparent pricing.** Prices are clearly displayed. There are no hidden costs or surprises in the terms.
- Pages don't refresh automatically.** Users can get confused if new content is uploaded suddenly, for example on news websites.
- Sample content.** For example there is a sample newsletter next to a newsletter sign up form.

HOMEPAGE

- Clear call for action.** Users know what to do next and why it benefits them. They understand the value proposition and purpose of the site.
- First impression.** The homepage creates a positive first impression and supports conversion.
- Logged in user's name is displayed on the site.** e.g. "Hello, Charles", not "Hello, Sir".
- Major changes to the site are announced on the homepage.** For example changes in delivery policy or website downtimes.
- Company location and contact information** is easily accessible from the homepage.
- There is a privacy policy,** in case the site gathers information about users.

Чеклисты в тестировании

- ✓ Пишутся быстрее, чем тест кейсы
- ✓ Обеспечивают большее покрытие, чем тест кейсы
- ✓ Читаются легче, чем тест кейсы
- ✓ Добавляют творчество в работу тестировщиков
- ✓ Если написаны в формате «прочитал – сделал» - подходят и для новичков
- ✓ Можно показывать заказчикам (**кроме UAT**)
- ✓ Хватит уже требовать от своих тестировщиков тест-кейсы 😊
