# Principles behind the Agile Manifesto

*We follow these principles:*

Our highest priority is to satisfy the customer through early and **continuous delivery** !!! of valuable software.

Responding to changing requirements, even late in the project. Agile processes harness change for the customer's competitive advantage.

Working software frequently, from a few days to a couple of months, with a preference to the shorter timescale.

A close-up, high-resolution photograph of an elderly man's face. He has light-colored eyes, a prominent nose, and visible wrinkles on his forehead and around his eyes. The lighting is soft, highlighting the texture of his skin. At the bottom of the image, there is a dark red rectangular box with a white border containing white text.
